

906

906 is a Facebook project that started in August, 2017. Every night at 9:06 pm Pacific Time, I post a new post. I try to choose informative posts about arts, nature, science, cultures, history and new technologies that have a neutral and concrete content. This project for me represents a sense of continuity in learning.

Zero is my favorite number because it is not a positive number or negative. It represents the grey line, the middle road, not the extremes, the perfect state of mind, the not happy or sad but content. The shape of number 9 and the shape of number 6 are reverse and opposite of each other. The shape of number zero is the shape of number 9 \cap the shape of number 6.
